Measures COVID-19

The health, safety and well-being of our customers and team is our number one priority. We have safeguards in place to ensure that we are fully Covid-19 secure. We will continue to update our advice according to the latest government guidance.

The actions we are taking in line with Public Health guidelines to protect you are intensely focused on three priorities:

1. Your safety and the safety of the therapists.
2. Ensuring that hygiene standards exceed recommended guidelines.
3. Maintaining the high professional standards and the quality of service that you have come to expect from us.

You can expect the same team, same smiley eyes greeting and same great massage treatment. As always, our massage treatment will be over the clothes and your therapist will work behind you while you face forward as usual. You and your therapist wear a mask throughout the duration of your visit.

Our therapists have always used hand sanitizer before and after every treatment and this will continue along with regular hand washing. To maintain our stringent hygiene practices, you will be asked to use hand sanitizer before sitting for your treatment and again on leaving. In line with Government guidelines, we must ask a couple of questions to comply with Covid-19 health and safety. The massage chair and area will be fully sterilized after every massage.

**We look forward to seeing you soon as we all move forward safely for all.
With our warmest regards and thanks.**
